

TBIA Bulletin

Issue 26, April to June, 2018

From the President's Desk

Dear Members,

April-June 2018 was the first quarter of the Financial year 2018-19. Once again this quarter was full of activities and seminars, keeping our association in high spirits. Sometimes it is difficult for me to enlist all the activities and seminars that have taken place during the quarter, but I would still like to highlight some important developments.

First and foremost, it is a matter of great pride that the Common Effluent Treatment Plant (Thane Belapur Industries Association) has been conferred with Prestigious "Vasundara Award" for Excellent Performance in Environment Protection at Thane Belapur Industrial Belt by Maharashtra Pollution Control Board on the occasion of World Environment Day 2018. Shri. Ramdas Kadam, Minister of Environment, Government of Maharashtra presented this award at Y. B. Chavan Auditorium on 6th June. It was an honour to receive the "Vasundara Award" along with Shri. S. R. Iyer, Chairman CETP on the occasion. This is the second time that our Common Effluent Treatment Plant bags this award. The last one was received in the year 2015.

On the backdrop of the recent incident of fire in Khairne area, a meeting was organized on 6th June with the MIDC Fire Department, NMMC Fire Department, DISH and Police Department. More than 60 executives from the industries attended this meeting. Mr. Ogale, from the MIDC Fire Station gave a lot of important information pertaining to reporting of fire incidents to the fire station, dedicated foam tender for MIDC fire stations and need for marginal space to be kept around the factories.

TBIA jointly with Vivekanand Kendra Kanya Kumari celebrated Yoga Day on the occasion of International Yoga Day on 21st June. This event was also a huge success. Our usual activities like the Tree Plantation, First Aid Training and so on took place in full force as always!

We have received sufficient response for our Safety Courses which will be starting in July 2018. We request more and more members to depute their representatives for this very important activity.

Fortunately, the rain gods are in our favour and we hope for better crops throughout the country!

Thanks & Regards,

Bipin Shah
President

Industrialized India is growing, Are you growing too?

Recently India has emerged as the tenth largest industrialized country of the world. Small scale industries play a vital role in the economic development of our country. This sector can stimulate economic activity and generate more and more employment opportunities. Small scale industries are not in a position to play their role effectively due to various constraints like non-availability of raw materials, competition of large scale industries, low technical skill are some of the problems faced on regular basis. But now apart from these problems, many small scale industries have been served with notices from Government local bodies to vacate the land on which they have been operating for years. The prime reason been given as pollution, illegal construction, being in residential areas etc. Hence these small industrial owners are uncertain on their future.

The answer to this issue lies in shifting to a place which offers, value business properties and offering solutions that enable ease of business for it's clients, and what is better than INDIA'S FIRST INDUSTRIAL SMART CITY near Mumbai known as Renaissance INDUSTRIAL SMART CITY at Kalyan. The project is situated on the junction of Mumbai-Delhi Industrial Corridor & Nagpur-Mumbai Super Communication Expressway. This project is well connected by Rail, Road, Sea and Air.

Renaissance INDUSTRIAL SMART CITY is absolutely Built-to- suit developments allows you and your organization to fully meet your operational and corporate needs including function, image, and workplace strategy. With PEB, Factory Building, Clusters and Large Industrial Unit with Ancillary this is the best place to be.

Renaissance, India's first Industrial Smart City that is currently proposed across 422 Acres out of which 130 Acres is already under development. We have already developed approx. 1 million sq ft and is already operational. It efficiently integrates Information and Communication Technology (ICT) and Internet of Things (IoT). This Smart City is segregated into 7 layers that encompasses primary, secondary and tertiary facilities for a smooth flow of processes of various industries. It's strategic location in proximity to industrial corridors also makes it reap the benefits of smooth transportation acting as a catalyst for better supply chain management.

Renaissance is developing 9 clusters that hosts supporting infrastructure for various industries like Logistics & E-commerce, Green industries, Metal & Steel, Printing & Paper, Pharma, Plastics, Electronics, Textiles and food processing.

Renaissance is the First Industrial Integrated Project in Maharashtra with 100% marketable Title / Ownership Model. Also an important aspect of the project is that the complete planning of the project is done by MIDC and also a Special MOU has been signed between Renaissance and the government of Maharashtra by the Chief Minister Devendra Fadnis. As MIDC being the planning authority in this project, a single window clearance would be given to all the property related matters that comes in Renaissance with a commitment to promote Ease of Doing Business in Maharashtra by streamlining different processes and approvals required to establish and operate a business. Also various State and Central Subsidies can be availed which are available to promote a vibrant business community and generate employment. Returns on capital investment through various Subsidies are too available which reduces the initial outlay, rather than lowering the cost of capital.

Renaissance, offers a wide range for properties option starting from 1350 sq. Ft with Financial assistance is available from institutions such as Nationalized Banks, Small Industries Development Bank of India, Regional Rural Banks, National Small Industries Corporation, State Financial Corporations etc. Depending upon the project requirement and promoters background, with just a 10% down payment, the loan can be availed for someone who buys a property in Renaissance.

Located at the golden triangle of Bhiwandi, the future growth & development corridor the next development region for MMRDA and an ideal place for businesses to locate or relocate.

Choosing a business location is perhaps the single most important decision a small business owner or startup will make, so it requires precise planning and research. It involves looking at demographics, assessing your supply chain, scoping the competition, staying on budget, understanding how state laws and taxes might impact you, and so much more. In addition to this, the best part is that Renaissance come with all this in hand for you to just concentrate on your business and go ahead and share your office location best in the industry like Amazon, H & M and VistaPrint to just name a few.

An Aditorial Investment Information Article by Prashant Fulwane

MURBAD is next MEGAPOLIS with amazing & great investment potential.

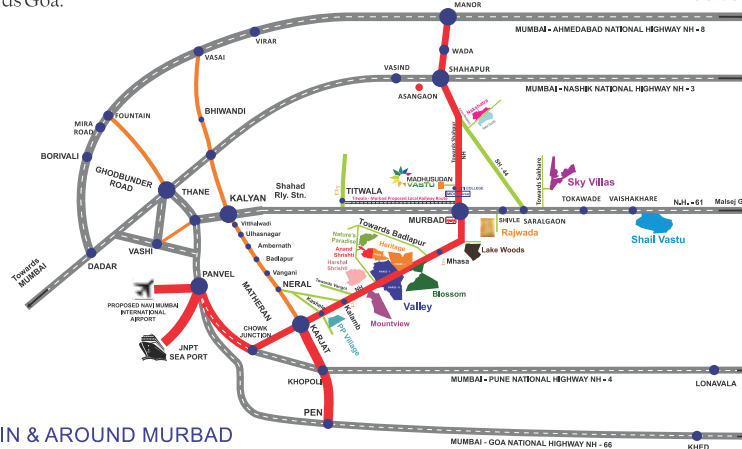

Many years back Thane was a sleeping town. And suddenly it woke up & all around development started taking place at a supersonic speed. The unbelievable growth took place on GHODBUNDER ROAD. You name a builder of repute such as Hiranandanis, Lodhas, Rustomjee, Puraniks, Dosti & others were there with big projects.

Same status is being attained now by MURBAD. It is just a question of time that it wakes up. With adjoining towns such as Kalyan, Dombivli, Ambernath, Badlapur getting saturated, Murbad is the next destination now.

MURBAD is a Hub that connects Five (5) National Highways namely NH-08 towards Ahmedabad; NH-03 towards Nashik; NH-61 towards Ahmednagar; NH-04 towards Pune & NH-66 towards Goa.

SHRI. PRASHANT FULWANE
Chairman Cum Managing Director,
Vastusankalp Group

DEVELOPMENTS IN & AROUND MURBAD

- **Kalyan-Ahmednagar Railway Line:** The Railway Ministry has undertaken a survey of around 250 kms railway line between Kalyan and Ahmednagar via Murbad & work has already started.
- **CIDCO Metro Rail:** CIDCO to concentrate on development of peripheral areas of Ambernath, Badlapur, Murbad and Kalyan in Mumbai metro region and will explore a possibility of building metro rail line between Murbad and Taloja via Ulhasnagar
- **Special Economic Zone (SEZ):** SEZ has already bought a 3000 acres of land in Saralgaon (15 min from Murbad bus depot) which will bring many non-pollution industries to build their offices there and hence creating plenty of employment opportunities and attracting many job hunting people.
- **Kalyan Ahmednagar Road Extension:** The current 2 lane road from kalyan to ahmednagar (NH-61 via Murbad) is extending to 4 lane road. The construction work is going on from kalyan and very soon we will enjoy smooth journey.
- **Textile Park in Murbad:** A 100 acres of land is developed for textile park to be built in Murbad.
- **International Airport & Sea Port:** Murbad is Gate-way to New International Airport coming up at ULWE & JNPT Sea Port.

Anticipating these developments, a renowned name in NA Plots Sale, VASTUSANKALP Group started its operations in Murbad in the year 2009. And today it has been instrumental in selling over 57,50,000 Sq Ft of NA Plots to over 5300 Buyers.

The growth rate from 2009 till date has been over 950%. Growth from 2018 onwards is going to be much faster because of the developments taking place in and around Murbad.

Today, Vastusankalp Group is the largest NA Land holders in & around Murbad. It has 12 Active running projects & all of these are highway touching lands. All projects are Gated with boundary walls in its periphery, having internal Roads, Water, Electricity & 24hour security. All projects are approved by Financial Institution for Loan Facility.

Safety in Chemical Industries

Informal discussion with SSI Units in Thane Belapur Industrial
held on 9th April, 2018 @ 3.00 PM

(SSI Units)

Mr. Kedia Guiding Industries

On the backdrop of the recent untoward incident of fire in Khairne area, we have initiated to organize such meetings as a part of Learning and Sharing for all. The session shall be informal with a clear objective of gaining experience and knowledge and implementing the same for raising the Standard of Safety in the Industry

TOTAL MANAGEMENT FRAMEWORK

TOTAL MANAGEMENT FRAMEWORK (TMF), for the very first time, describes Management Function in Science like manner. It explains Management function through a logical, comprehensive and standardized structure that covers elements of business organization, its processes, operations, activities and their properties. It successfully integrates Modern Management Approach (Lean Management or Japanese Management) with Foundation of Scientific Management (Fayols and Taylor's Principles). It presents a comprehensive map of Modern Management Paradigm. It lays down foundation for understanding Business Organization Dynamics.

It is going to revolutionize Management Practice, Consulting and Education.

It Provides Clear Direction For

Performance Management Systems

TBIA organised a Seminar on “Performance Management Systems” on Thursday, 7th June, 2018 between 10:00 am to 05:00 pm at TBIA office, Rabale.

Speaker Mr. G. S. Bora, BA (Eco), MBA (HR), LLB (G) having 38 years of Experience in the field, said "The biggest challenge in performance management, remains creating a high performance culture by itself in the organization. which includes ways of doing appraisals, the roles and responsibilities of the Manager, HR, and employee. He further emphasized that a good Performance Management System takes care of the alignment between what and how in the system:

Session was well attended by member industries by nominating their corporate head, Middle level management people along with person from shop floor, Admin and HR to attend the important topic. More than 20+ companies attended the session.

FLAMES to ASHES

Industries pose hazard due its operations to the society. We have been observing exposure and fire incidence industrial belt. The damage caused is enormous by way of loss of lives. It further results into closure of industries, rise in unemployment and lost to exchequer. At Thane Belapur Industrial belt we have cluster of mix industries comprising of Chemical, Engineering, Pharma, Oil and Gas, Textiles etc. Hence, the potential hazard increases. There is always a danger from neighboring industry. As said "Prevention is better than cure" proactive step needs to be adopted to avert any untoward incidence. Following best practices shall go a long way in improved productivity.

In Thane Belapur Industrial belt we have technocrats and professionals in various fields. We at TBIA shall act as a facilitator utilises their expertise and extent helping hand to the industries on honorary basis in the area of audits and training.

With the help of safety experts from Thane Belapur Industries we have conducted Fire Audit in organisations who volunteered for the same. Both Auditors & Auditee organisation has good experience from the Audit of sharing & learning respectively. We further request members to voluntary its come forward to take the benefit by registering for "Fire Audit" with TBIA Office.

We shall continue the "Fire Audit". Specially for Small Scale Industries from "Aug 2018". Schedule shall be forwarded to Concerned Industries Periodically.

Request Industries to come forward and grab the opportunity as a pro active step of Improvement in their systems.

Contribute....!

Do you have an interesting story to share about the workings of your organisation? Have you implemented any creative measures for the benefit of your employee? Would you like to share thoughts about the myriad aspects of the vibrant TTC area?

Feel free to write to TBIA bulletin on: amol.tbia@gmail.com/tbia@vsnl.com

TBIA Bulletin

Issue 26, April to June, 2018

Safety in Chemical Industries

(SSI Units)

Informal discussion with SSI Units in Thane Belapur Industrial Area

In continuation to the fruitful discussions we had on 9th April on the above subject matter, we organised yet another informal meeting on 16th May 2018 at TBIA office on similar lines.

Objective : On the backdrop of the recent untoward incident of fire in Khairne area, we have initiated such meetings as a part of **Learning and Sharing** for all. The session was informal with a **clear objective of gaining experience and knowledge and implementing the same for raising the Standard of Safety in the Industry.**

Mr. Naresh Deveraj, Jt. Director (In-charge), DISH Thane along with his team Mr. Gorane, Dy. Director, Mr. Patange, Dy. Director & Mrs. Ade, Dy. Director, DISH were present along with Mr. R. M. Kedia, (Vice President, TBIA), G. S. Bora (Hon. Gen. Secretary) Nirav Kothari (Hon. Jt. Secretary) Koustubh Gokhale, (Treasurer, TBIA) of the session 30+ Member Industries took advantage by interacting with NMMC officials.
